## Responsible/ethical investing

We use external manager Epoch Investment Partners Inc. (Epoch) for this fund. Epoch Investment Partners Inc. (Epoch) employ a strategy of integration and company engagement/voting, meaning their team researches the companies they invest in and actively checks for any environmental, social or governance (ESG) risks that may apply. ## Responsible/ethical investing

We employ a strategy of integration and company engagement/voting, meaning our team researches the companies we invest in and actively checks for any environmental, social or governance (ESG) risks that may apply. It helps our Portfolio Manager develop an understanding of each company, and influences not only whether we invest in companies, but also how much. The fund also utilises external managers, who must meaningfully integrate ESG and impact into their processes.

Additional information on screening thresholds and processes are outlined in our [ESG Policy](#) and the fund [Statement of Investment Policy & Objectives \(SIPO\)](#).

### About the Fund

An actively managed fund designed for investors who want liquidity and a higher return than short-term interest rates would generate at a bank.

### Fund purpose

This Fund is designed as a short term, higher liquidity and lower volatility investment option. The objective of the Fund is to outperform the benchmark of the portfolio by 85 basis points per annum over a rolling 3-year period.

### Fund benchmark

S&P/NZX Bank Bills 90-Day Index.

### Investment approach

This Fund holds liquid money market securities, NZ Government stock, corporate bonds and term deposits. It aims to generate returns in two ways: using Harbour's research-driven process to capture the higher yield that longer term securities can offer, then actively managing liquidity and interest rate exposure so funds are available when investors need them.

### About the Fund

A diversified fund designed for investors who want to grow their wealth and make a positive impact. The Fund has been designed to have a lower carbon footprint than the market benchmark, any carbon contained in the Fund will also then be offset by Harbour, through investment in projects which actively prevent carbon release and contribute to multiple UN Sustainable Development Goals (SDGs).

### Fund purpose

This Fund is designed to provide capital growth, risk management, and a positive impact from their investments. It aims to exceed the Official Cash Rate + 4% over rolling 5-year periods, and create a positive impact as measured against UN Sustainable Development Goals.

### Fund benchmark

5% S&P/NZX Bank Bills 90-day Index, 35% S&P/NZX A-Grade Corporate Bond Total Return Index, 15% S&P/NZX 50 Portfolio Index, 10% S&P/ASX 200 Index (50% hedged to NZD), 17.5% MSCI All Country World Index (unhedged), 17.5% MSCI All Country World Index (100% hedged to NZD).

### Investment approach

This balanced fund provides exposure to a mix of domestic and global investments, with a strong focus on the positive impact that these investments will have on various objectives linked to the UN SDGs. All investments are assessed against the SDGs. The Fund invests approximately 60% in growth assets such as impact global and domestic public and private equities, and approximately 40% into more defensive assets, predominantly impact and green bonds that meet our research criteria.

## Responsible/ethical investing

We employ a strategy of integration and company engagement, meaning our team researches the companies we invest in and actively checks for any environmental, social or governance (ESG) risks that may apply. They also develop an impact thesis for each security, linked to at least one UN SDG. This helps our team develop an understanding of each company, and influences not only whether we invest in companies, but also how much. The fund also utilises external managers, who must meaningfully integrate ESG and impact into their processes. The Impact Committee, made up of internal and external members, provide guidance and oversight on impact issues and SDGs. This fund also includes negative screening to remove companies whose business activities may lead to significant harm. Zero-tolerance exclusions include Adult Entertainment, Alcohol, Controversial Weapons, Gambling, Tobacco, UN Global Compact Violators and Whaling. Companies with exposure to fossil fuels will only be included if they are proven to be rapidly transitioning to renewables.

Additional information on screening thresholds and processes are outlined in our [ESG Policy](#) and the fund [Statement of Investment Policy & Objectives \(SIPO\)](#).
