Responsible/ethical investing

We use external manager T. Rowe Price for this fund. T. Rowe Price employ a strategy of integration and company engagement/voting, meaning their team researches the companies they invest in and actively checks for any environmental, social or governance (ESG) risks that may apply. It helps their Portfolio Manager develop an understanding of each company, and influences not only whether they invest in companies, but also how much. We only engage external managers who prove to us that they meaningfully integrate ESG into their investment decision making process. We undertake regular due diligence including independent carbon footprint analysis, and engage regularly with their team on management of ESG issues. Information on screening thresholds and processes are outlined in our ESG Policy and the fund Statement of Investment Policy & Objectives (SIPO).
