What are the risks of investing?

Risk indicator for the Epoch Global Quality Select Equity (Hedged) Fund

A combination of actual Fund returns and market index returns have been used to determine the risk indicator for the Epoch Global Quality Select Equity (Hedged) Fund (inception 30 October 2024), as the Fund has not been operational for the required 5 years. The risk indicator may therefore provide a less reliable indicator of potential future volatility of this Fund.

The risk indicator is rated from **1 (low) to 7 (high)**. The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the 5 years to 30 September 2025. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this Fund.

How has the Fund performed?

	Past Year
Annual Return¹ (after deductions for charges and tax)	Not Available
Annual Return¹ (after deductions for charges but before tax)	Not Available
Market index annual return¹ (reflects no deduction for charges and tax)	16.71%

The market index annual return is based on the weighted average return of the market indices used to measure performance of the underlying fund. In this case the Market Index is the MSCI All Country World Index (100% Hedged to NZD). Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz/>.

What fees are investors charged?

Investors in the Fund are charged fund charges. This Fund has not been open for a year to 30 June 2025. As such, below are estimates of fees to 30 September 2025.

	% of net asset value
Total fund charges (Inc. GST)	1.01%
Which are made up of:	
Total management and administration	1.01%
Including-	
Manager's basic fee	0.84%
Other management and administration charges ²	0.17%
Total Performance-based fees	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS and Other Material Information Document OMI for more information about fees. Also see the product disclosure statement for more information about the basis on which performance fees are charged.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Jenny had \$10,000 in the Epoch Global Quality Select Equity (Hedged) Fund on 30 October 2024 (inception date) and did not make any further contributions. At the end of September 2025, Jenny received a return, after fund charges were deducted, of \$256 (that is 2.56% of her initial \$10,000). This gives Jenny a total return after tax of \$197 for the period 30 October 2024 to 30 September 2025. As the fund started on 30 October 2024, it has not been in existence for a full scheme year. This example is based on the actual returns since inception, after deductions for charges and tax. It is not an annualised return.

What are the risks of investing?

Risk indicator for the Harbour Australasian Equity Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the 5 years to 30 September 2025. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this Fund.

¹ Exclusions include tobacco, nuclear explosives, cluster munitions, anti-personnel mines, pornography, recreational cannabis and controversial firearms. Further information on screening thresholds and processes are outlined in the exclusions section of our ESG policy which can be found on the Harbour website.

How has the Fund performed?

	Average over past 5 years	Past Year
Annual Return ¹ (after deductions for charges and tax)	2.40%	1.12%
Annual Return ¹ (after deductions for charges but before tax)	2.90%	1.48%
Market index annual return ¹ (reflects no deduction for charges and tax)	3.29%	7.75%

The market index annual return is based on the weighted average return of the market indices used to measure performance of the underlying fund. In this case the Market Index is the S&P/NZX50 Index. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz/>.

Annual Return Graph²

This shows the return after fund charges and tax for each year ending 31 March for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2025. The Market Index returns do not include any tax, expenses or charges.

Important: This does not tell you how the Fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Fund are charged fund charges. In the year to 30 June 2025 these were as follows:

	% of net asset value
Total fund charges (Inc. GST)	1.12%
Which are made up of:	
Total management and administration	1.12%
Including-	
Manager’s basic fee	0.98%
Other management and administration charges ³	0.14%
Total Performance-based fees	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS and Other Material Information Document OMI for more information about fees. Also see the product disclosure statement for more information about the basis on which performance fees are charged.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term. Jenny had \$10,000 in the Harbour Australasian Equity Fund at the start of the year and did not make any further contributions. At the end of the year, Jenny received a return, after fund charges were deducted, of \$148 (that is 1.48% of her initial \$10,000). This gives Jenny a total return after tax of \$112 for the year.

Harbour Investment Funds

This fund update was first made publicly available on 29 October 2025

What is the purpose of this update?

This document tells you how the Harbour Enhanced Cash Fund has performed and what fees were charged. The document will help you compare the Fund with other funds. Harbour Asset Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Harbour Enhanced Cash Fund is an actively managed portfolio that holds liquid money market securities, NZ Government Stock, corporate bonds and bank deposits, all denominated in New Zealand Dollars. The Fund is designed to earn a premium over 90 day bank bills, while aiming to avoid the volatility of traditional fixed interest funds. The maximum permitted duration of the Fund is 2 years. The Fund maintains a core holding of highly liquid securities in order to minimise transaction costs and facilitate investor cash flow requirements at short notice. The Fund also uses hedging instruments to manage interest rate risk within prescribed limits.

Investment Objective: To outperform the benchmark of the portfolio by 85 basis points per annum over a rolling 3-year period.

Benchmark: S&P/NZX Bank Bills 90-Day Index

Harbour Long Short Fund Fund Update

for the quarter ended 30 September 2025

Harbour Investment Funds

This fund update was first made publicly available on 29 October 2025

What is the purpose of this update?

This document tells you how the Harbour Long Short Fund has performed and what fees were charged. The document will help you compare the Fund with other funds. Harbour Asset Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Fund is an actively managed, high conviction portfolio investing principally in 'long' and 'short' listed Australasian equities. The focus is on delivering positive returns through the market cycle by investing in long and short-sold equity positions with no particular attention to an equity benchmark. The fund is expected to have lower volatility than equity benchmarks. We can actively allocate investments between Australasian listed equities, fixed interest and cash. The Fund may also use derivatives to hedge currency and equity risk.

Investment Objective: To deliver positive absolute returns through the economic cycle with low volatility and low correlation of returns with equity markets.

Benchmark: 15% S&P NZX50 Index; 15% S&P/ASX 200 Index & 70% S&P/NZX Bank Bills 90-Day Index.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the 5 years to 30 September 2025. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this Fund.

How has the Fund performed?

	Average over past 5 years	Past Year
Annual Return¹ (after deductions for charges and tax)	3.76%	2.13%
Annual Return¹ (after deductions for charges but before tax)	4.03%	2.93%
Market index annual return¹ (reflects no deduction for charges and tax)	5.01%	6.44%

The market index annual return is based on the weighted average return of the market indices used to measure performance of the underlying fund. In this case the Market Index is the 15% S&P NZX50 Index: 15% S&P/ASX 200 Index & 70% S&P/NZX Bank Bills 90-Day Index. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz/>.

Annual Return Graph²

This shows the return after Fund charges and tax for each year ending 31 March since the Fund started.

The last bar shows the annualised annual return since the Fund started, up to 30 September 2025. Market Index returns do not include any tax, expenses or charges.

Important: This does not tell you how the Fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Fund are charged fund charges. In the year to 30 June 2025 these were as follows:

	% of net asset value
Total fund charges (Inc. GST)	1.23%
Which are made up of:	
Total management and administration	1.23%
Including-	
Manager’s basic fee	0.67%
Other management and administration charges ³	0.56%
Total Performance-based fees	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS and Other Material Information Document OMI for more information about fees. Also see the product disclosure statement for more information about the basis on which performance fees are charged.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Jenny had \$10,000 in the Harbour Long Short Fund at the start of the year and did not make any further contributions. At the end of the year, Jenny received a return, after fund charges were deducted, of \$293 (that is 2.93% of her initial \$10,000). This gives Jenny a total return after tax of \$213 for the year.

for the quarter ended 30 September 2025

Harbour Investment Funds

This fund update was first made publicly available on 29 October 2025

What is the purpose of this update?

This document tells you how the Harbour NZ Core Fixed Interest Fund has performed and what fees were charged. The document will help you compare the Fund with other funds. Harbour Asset Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Fund is an actively managed investment grade bond fund that invests mainly in New Zealand Government and corporate bond fixed interest securities.

Investment Objective: The investment objective of the Fund is to outperform the benchmark by 100 basis points per annum over a rolling three year period.

Benchmark: Bloomberg NZ Bond Composite 0+Yr Index

Total value of the Fund (NZD) \$ 312,193,156

The date the Fund started 24 May 2011

What are the risks of investing?

Risk indicator for the Harbour NZ Core Fixed Interest Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the 5 years to 30 September 2025. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this Fund.

How has the Fund performed?

	Average over past 5 years	Past Year

Other management and administration charges ³	0.15%
Total Performance-based fees	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS and Other Material Information Document OMI for more information about fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Jenny had \$10,000 in the Harbour Real Estate Investment Fund at the start of the year and did not make any further contributions. At the end of the year, Jenny received a return, after fund charges were deducted, of \$1,009 (that is 10.09% of her initial \$10,000). This gives Jenny a total return after tax of \$961 for the year.

Harbour Sustainable Impact Fund Fund Update

for the quarter ended 30 September 2025

Harbour Investment Funds

This fund update was first made publicly available on 29 October 2025

What is the purpose of this update?

This document tells you how the Harbour Sustainable Impact Fund has performed and what fees were charged. The document will help you compare the Fund with other funds. Harbour Asset Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Fund is designed to provide investors with exposure to a diversified range of global and domestic investments which make a positive environmental or social impact while aiming to exceed the return benchmark. All investments are assessed against the United Nations Sustainable Development Goals (SDGs). The Fund invests approximately 60% in growth assets such as impact global and domestic public and private equities and approximately 40% into more defensive assets, predominantly impact and green bonds that meet our research criteria. The Manager will use active management to enhance returns and manage downside risks.

Investment Objective: To exceed the Official Cash Rate (OCR) plus 4% over rolling 5-year periods. The impact objectives are to make measurable positive influence on UN Sustainable Development Goals which could include climate, natural capital, resource sustainability, wellness, social inclusion and thriving communities and infrastructure.

More information on the goals is contained at sdgs.un.org.

Benchmark: 5% S&P/NZX Bank Bills 90-day Index, 35% S&P/NZX A-Grade Corporate Bond Total Return Index, 15% S&P/NZX 50 Portfolio Index, 10% S&P/ASX 200 Index (50% hedged to NZD), 17.5% MSCI All Country World Index (unhedged), 17.5% MSCI All Country World Index (100% hedged to NZD).

Total value of the Fund (NZD)

\$ 8,752,684

The date the Fund started

30 November 2021

What are the risks of investing?

Risk Indicator for the Harbour Sustainable Impact Fund

A combination of actual Fund returns and market index returns have been used to determine the risk indicator for the Harbour Sustainable Impact Fund (inception 30 November 2021), as the Fund has not been operational for the required 5 years. The risk indicator may therefore provide a less reliable indicator of potential future volatility of this Fund.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the 5 years to 30 September 2025. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this Fund.

How has the Fund performed?

	Past Year
Annual Return¹ (after deductions for charges and tax)	1.85%
Annual Return¹ (after deductions for charges but before tax)	2.36%
Market index annual return¹ (reflects no deduction for charges and tax)	13.09%

The market index annual return is based on the weighted average return of the market indices used to measure performance of the underlying fund. In this case the Market Index is the 5% S&P/NZX Bank Bills 90-day Index, 35% S&P/NZX A-Grade Corporate Bond Total Return Index, 15% S&P/NZX 50 Portfolio Index, 10% S&P/ASX 200 Index (50% hedged to NZD), 17.5% MSCI All Country World Index (unhedged), 17.5% MSCI All Country World Index (100% hedged to NZD). Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz/>.

Annual Return Graph²

This graph shows the return after Fund charges and tax for each year ending 31 March since the Fund started. The last bar shows the annualised annual return since the Fund started, up to 30 September 2025. Market Index returns do not include any tax, expenses or charges.

Important: This does not tell you how the Fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Fund are charged fund charges. In the year to 30 June 2025 these were as follows:

	% of net asset value
Total fund charges (Inc. GST)	1.30%
Which are made up of:	
Total management and administration	1.30%
Including-	
Manager’s basic fee	0.90%
Other management and administration charges ³	0.40%
Total Performance-based fees	0.00%

The Harbour Sustainable Impact Fund does not charge a performance fee, however, some of the underlying Funds do, which flows through to the investor. Please refer to the PDS & OMI for more information on how performance fees are charged.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS and Other Material Information Document OMI for more information about fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Jenny had \$10,000 in the Harbour Sustainable Impact Fund at the start of the year and did not make any further contributions. At the end of the year, Jenny received a return, after fund charges were deducted, of \$236 (that is 2.36% of her initial \$10,000). This gives Jenny a total return after tax of \$185 for the year.
